

This is a design for the Camera set up on the stick just an idea very basic.
The two images show different arm movements.

**Design 2:
Top View**

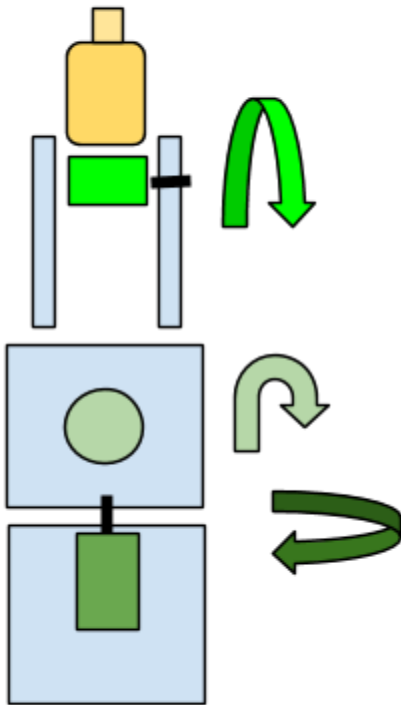

Key:
Green Motors
Arrows show direction
Blue Support
Red/brown dowel
Yellow Camera / Pi

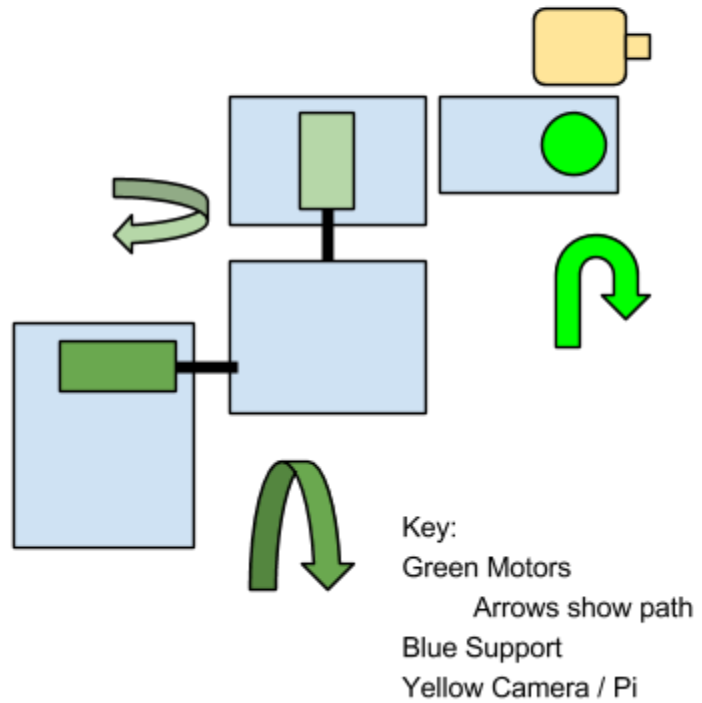

The big difference between design 1, 2 and 3 are the placements of the motors.

Design 3:

Top View

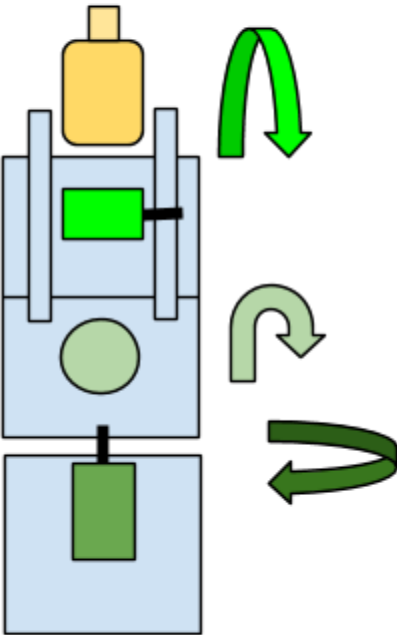

Side View

Design 3 can still last part can still be place on top instead of sticking out. Which is sshown in design 4.

Design 4:
